Verdict honnete

Le ledger ne dit pas "pret pour le reel". Il dit: 2 lanes meritent de continuer en forward paper, plusieurs lanes doivent etre stoppees, et le total global reste fragile si le latent ouvert absorbe le PnL realise.

Regle: une lane est interessante seulement si elle combine PnL positif, PF correct, sample suffisant et latent contenu. Un bon symbole seul ne suffit pas.

Symboles: INJUSDT,TIAUSDT.

Total realise + latent: +10.907817 USD, exits: 12, PF: 1.534482.

Limites de preuve

Les totaux globaux additionnent des event_type qui peuvent se chevaucher; ils servent au diagnostic, pas a simuler un portefeuille reel unique.

Methode latent: latest_unmatched_state_per_event_type_and_symbol.

Ce rapport reste paper-trading only: aucun signal client, aucun ordre wallet.
